Banking credit to rise over 10% this fiscal: SBI report

PRESS TRUST OF INDIA
Mumbai, July 29

THE RUSSIAN INVASION of Ukraine has not had a significant impact on the on-ground sentiments, and the Indian banking system will record a credit growth of over 10% in FY23, a report said on Friday.

The capacity utilisation is nearing 75% levels, which means that investment activity is expected to strengthen further from here on, the report by economists at the country's largest lender SBI said.

According to latest official data, the non-food credit growth for the system came at above 13% for the fortnight ended July 15.

Last week, Reserve Bank of India (RBI) governor Shaktikanta Das said that as per the central bank's internal data, the same is hovering above 14%. "... the evolving war seems to have not significantly impacted sentiments on the ground," the SBI economists said.

The note said sector-wise credit data for the month of June 2022 indicates that there is a substantial improvement

in incremental credit to each and every sector.

Credit to micro, small and medium enterprise (MSME) sector expanded by ₹52,800 crore in the fortnight ended July 15 in the current fiscal. It was a de-growth of ₹61,000 crore in the year-ago period. During the same period, retail loans expanded by ₹1.34 trillion whereas the segment had recorded a de-growth of ₹26,500 crore in the same period a year ago.

"In FY23, we expect both deposits and credit will continue to grow in double digits, despite the interest rate reversal," it said.
